-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. In view of the amendment of 4/22/2005, the restriction requirement of 3/23/2005 is withdrawn.
2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "coil 81" which appears on page 9, line 7, has not been found in the drawings. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
3. The disclosure is objected to because of the following informalities: "coil 81" (see page 9, line 7) has not been found in the drawings. It would appear that "coil 81" should be - - coil 92 - -.

Appropriate correction is required.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3751

5. Claims 1 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hornby. Hornby discloses a solenoid carrier assembly including a carrier 12 with a top surface opposed to 38, a side surface opposed to 40, 46, and a bottom surface shown at the end of the taper beneath 47, a stator assembly which assembly includes portions 55, 32, 36, 38, and an exposed bottom surface at 63, and a deflection cavity as is the clearly drawn gap adjacent 38 between 38 and 12.

6. Claims 23-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Huang et al. Huang discloses a carrier assembly including a carrier 24, a ball valve seat 32, a stator 8, 81, 82, attached to the carrier and a ball valve 1.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Press et al., Lewis et al., and Anderson et al., teach other solenoid carriers.

8. Claims 2-5, 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 9-22 are allowed.
